

# Expobank

## Statement by Expobank CZ

We are a Czech bank with a traditional presence of 31 years in the domestic market, with a Czech board and headquarters in Prague. The majority of our clientele is composed of Czech citizens and Czech companies, and we pursue our business based on a license issued by the Czech National Bank.

**Unlike certain other banks with a Russian capital involvement, our shareholder is not the Russian state but strictly private capital.** The main shareholder of Expobank CZ is economist Igor Kim; within his international group of companies, we enjoy the position of an autonomous and independent bank.

At this point, we are not aware that the sanctions which have been announced so far have any impact whatsoever on our business operations in the Czech Republic; we continue to operate as usual.

Like all other banks in the market, we are carefully monitoring and analyzing the international situation going forward.

We would like to say Thank You to our clients for their continued custom and their trust in us.

Prague, 25 February 2022
